

## Make A Halloween Holiday Wreath From Dollar Store Items

The individual items caught my attention at my local Dollar Tree Store. As I thought about them the idea of a Halloween Holiday Wreath was born. All that is needed is the skull tray; self adhesive foam cut outs, goggle eyes and self adhesive hanger.

Supply List:

Skull Tray \$1

Goggle Eyes \$1

Foam Cut Outs \$1

Hangers \$1

Total Cost \$4

Step One:

Gather Your Materials

Step Two:

Using the foam cut outs, stick them around the edge of the platter forming a “wreath.”

Step 3:

See how great it is going to look.

Step 4:

The Spider is a great touch.

Step 5:

Goggle eyes peeking out of the darkness add something special.

Step 6:

Add the hanger, hang on your door and wait for the Halloween goblins.
